

BPCL/JNP/OPS/02

27.10.2022

TRADE NOTICE

This is with reference to various discussions / meetings held at JNPA Admin Building along with professor from IIT Madras, JNPA officials and all Tank farm operators on long pending structural repair work of fenders at LB01 of Liquid Cargo Jetty and major revamping of BPCL firefighting system as recommended by OISD team. In order to ensure safe Liquid cargo operations at jetty, strengthening of jetty structure is very vital and the same need to be repaired as per the study conducted by IIT, Madras.

View above, 15 days shutdown from 15.11.2022 (07.00 Hrs) to 01.12.2022 (07.00 Hrs) is scheduled to carry out the above mentioned jobs. Please note that no vessel will be placed on LB01 during the shutdown period and only Non-POL vessels as per the attached list may be placed at LB02.

Since BPCL fire fighting system will be down for repair during the shutdown period, Tug assistance and fire tender of JNPA will be placed at Jetty as standby to combat any exigency at Jetty.

All tank farms can carry out their pipeline maintenance HOT/COLD work during the period with prior intimation and schedule work plan.

Kindly bear with us for any inconvenience cause.

Looking forward for your co-operation.

For Bharat Petroleum Corporation Ltd.
