

CENTRAL BOARD OF INDIRECT TAXES & CUSTOMS

Dept. of Revenue, Ministry of Finance, Government of India

Date: Feb 05th, 2021

Advisory No: 08/2021 Category: SCMTR Issued by: DGoS, ICES

Subject : Clarifications on SCMTR Registration related issues

Kind reference is invited to various Advisories and FAQs issued by this Directorate from time to time clarifying therein various aspects (including Registration) of Sea Cargo Manifest and Transshipment Regulations (SCMTR) related messages required to be filed in system by various stakeholders. Based on the queries received from various stakeholders and field formations, various clarifications are being provided herewith.

1. ANC (Authorized other Notified Sea Carriers):

- i. Registration for Customs Brokers also working as carriers: While there is no need for separate registration for Customs Brokers under SCMTR, many such entities are also engaged as freight warders, console agents etc. and therefore would require registration as ANC. The ANC registration has therefore been made available for entities having ICEGATE login as Customs Brokers. CBs, if also acting as other notified sea carriers as per the Regulations, may register under this category under the SCMTR.
- **ii. Decrease in amount of Bank Guarantee along with surety bond:** In terms of amended Board Notification No. 94/2020 (N.T.) dated 30.09.2020, the guarantee amount for Surety Bond required for ANC registration has been **reduced to Rupees five lakhs** from the earlier ten lakhs requirement in the System. Further, as stipulated in the aforesaid notification, the Authorized Economic Operator (AEO) and Customs Broker licensed under the Customs Brokers Licensing Regulations, 2018 are exempted from the requirement of bank guarantee.

2. ATP (Authorized Transhipper):

- i. Registration: It is noticed that although the registration under the category of Authorised Custodian (ACU) has been completed by many Custodians, the registration as Authorized Transhipper (ATP) registration is relatively less. The Custodians, who would also be doing Transshipment of Cargo, are required to be registered as ATP well. ATP registration requires officer approval. In this regard, the registration advisory as available on ICEGATE portal (<u>https://www.icegate.gov.in/Download/Advisory for users on SCMTR.pdf</u>) and ICES Advisory No. 04/2019 dated 28.02.2019 may be referred.
- ii. Requirement of National Transhipper Bond (TG Bond): Entities registered as ATP, who are responsible for the cargo during transshipment, are required to necessarily file/register a National Transhipper Bond (Bond Category TG) in the System. The same was already mentioned in the previous SCMTR registration advisories and is also elaborated in the FAQs

CENTRAL BOARD OF INDIRECT TAXES & CUSTOMS

Dept. of Revenue, Ministry of Finance, Government of India

published on ICEGATE (<u>https://www.icegate.gov.in/SeaManifestRegulation.html</u>). However, it is noticed that the entities registered as ATPs are not registering TG bond in the system. As a result, the users filing CSN/SAM messages are facing difficulties because the Transhipper Bond is a mandatory input wherever Transshipment cargo is being manifested. The inland transshipment messages like CIM-DP/AR etc. will also required TG bond to be quoted. Zonewise list of entities already registered as ATP is also enclosed in **Annexure I**. It may kindly be ensured that TG bonds for each of these entities are registered in the System at the port of registration. Needless to mention, that TG bond registered at one port will be applicable across India.

3. ASC (Authorized Sea Carrier):

- i. Shipping Lines Registration as ASC: Before SCMTR, Indian offices of most of the foreign shipping lines used to get registered as shipping agents with Customs. As has been clarified several times before, under SCMTR, any direct representative of a foreign shipping line needs to take registration as ASC. It is learnt that many such entities have registered as ASA (Authorized Sea Agent) instead. While both the ASC as well as ASA can file sea manifests, details of the PAN of the actual carrier or the ASC are to be mandatorily given in the manifest. It may kindly be taken up with such shipping lines and necessary registration formalities as ASC for the authorized sea carriers be completed at the earliest.
- ii. Using foreign Shipping Line code as Commercial Code under Authorized Operation in SCMTR:
 - a. During the registration as ASC, the entities are required to enlist the Shipping Line codes corresponding to the Shipping Lines they represent in the Authorized Operations section of the registration form. Earlier, shipping lines used to get their shipping line codes distinctly at customs locations. So, there were instances of same entity having different shipping line codes at different customs ports. However, to avoid any confusion in the declaration of Commercial Code for shipping lines under the Authorized Operations within Entity Registration in system, now the the unique foreign Shipping Line code as used internationally and enclosed in **Annexure II** can also be given by the ASC as commercial code.
 - b. For ASCs contracted for chartered Bulk Cargo vessels operated by different Shipping Lines which may not be available at the time of registration, Commercial code can just be mentioned as **BLK**.

Above clarifications may be widely circulated among the stakeholders and the registration process kindly be completed expeditiously.

Deputy Director, ICES
