PANKAJ KANWASI
SHIP MANAGER

To be honest, I visited the ship thinking that you guys might have rated it too high. In other words, I thought you might be too kind to Indians. In a good way, that expectation was met, and we saw a level of cargo operation that exceeded our expectations. There are some areas that are not evaluated by scores. I was impressed by their work attitude, workers took the initiative to collect trash, there was no smoking in the terminal, and they collected excess lashings and secured them to the deck. It is a matter of course to follow the rules, the biggest surprise was that this was done without any specific instructions. If possible, I would like to visit Mundra via Mumbai and greet everyone at KLIN. By the looks of it, Mundra must be just as great. Thank you so much for your kind support for me. I have developed a very strong relationship with JM Baxi and have found your service to be world class. I expect the quality to remain at the same level in the future. This is the first time I have seen a port that has managed its workers so well. Actually INENR score is 198/200, Frankly I was surprised and impressed. As for my only point regarding the use of rubber mats to improve cargo handling efficiency, I hope you will consider this depending on the availability of rubber mats on the vessel. Of course, from a safety view, the use of rubber mats is ideal over hawser (due to no necessary to arrange hawser controller).

The word of appreciation from our office , I would like to thank you & your staff for all the help that you have done in materializing this crew change; especially for the prompt messaging & keeping everyone informed of the developments throughout.

CAPT. MILEN RAJ.MASTER / HIGH MERCURY

As you know, as much as we are demanding, we can be as grateful to partners that have served our ships and crew needs so well. It's been a very long and difficult path to the success we have achieved, by repatriating 5000+ Indian crew to their homes, in the comfort of their family environments and avoiding altogether unnecessary institutional quarantines before seeing their beloved ones.

It is important to recognize that the hard work of your teams in Mumbai and Goa, not only made this success possible, but have never give up one single moment; through difficult changes in the local and national policies, hiccups at port level with berths cancelled that were earlier confirmed, complicated approval processes to accept a berth, and many other difficulties along the way, I believe I can say it out loud: your teams have been tremendously heroic in their efforts and energy poured into this huge repatriation project.

At no time, I was unable to reach your team to ask for updates, help on solving an issue or just get reassurances on the process we were all working on: days, nights, it didn't matter to the JMB team, the only important thing was the final result and goal of succeeding in this ambitious plan, through turbulent days and, let's not forget, in the middle of a pandemic that affected most of your teams also in a personal way, with red zones and lockdowns in place, that made all of the above, already complicated and ever-changing environment, a professional and personal nightmare to be in.

I haven't enough words of gratitude for you and the teams in Mumbai and Goa, who spent so many days in achieving such an important goal for our company, ships, crew and their families, so please accept this email as a recognition for all that your teams have done, we all know how difficult it was for everyone involved, our appreciation and admiration goes unconditioned to the JMB team.

Thank you once again for a perfectly planned and executed project.

ALESSANDRO CAROLLO DIRECTOR
ROYAL CARIBBEAN CRUISES LTD.

I thank J M Baxi for all the assistance and help rendered during my stay in Bhavnagar. Even though I still do not understand how I became covid19 positive and rest of the crew was found to be negative which is one concern which will always remain in my mind.

I thank you J. M. Baxi for all the assistance and help given to me during my quarantine days at Bhavnagar, quickly shifting me from hospital to hostel to hotel in 8 days.

I thank God for He protected me from any covid19 symptoms or felt sick during this entire period of quarantine even though I was amongst the covid19 patients with breathing difficulties and on oxygen.

Thank you very much and God Bless you all.
